Day 1 Lab Assignments

Task Structure:

- Create a main folder for your personal website.
- Inside it:
- Place the following HTML pages:
- welcome.htm, Home.html, About.htm, Contact.htm, Registration.html, Thankyou.htm, Terms.htm
- Create a subfolder named resources/ that contains: All images

Welcome Page :

- Create a welcome page named **welcome.htm**.
- The page should include:
- A welcome message with custom font and color.
- Your name on a new line.
- A centered welcome image.
- Change the page's background color.
- After 5 seconds, automatically redirect the user to Home.html using a . **<meta http-equiv="refresh"> tag.**
- Add a "**Skip Intro**" link at the bottom center of the page that opens Home.html in the same window.

Day 1 Lab Assignments

Home Page:

- Display your name in Arabic centered at the top of the page.
- On the left: use a bullet list to show your personal information (e.g., name, college, field).
- On the right: show your personal photo.
- Include a long “About Me” paragraph that forces vertical scrolling.
- Add a horizontal line (<hr>) after the about section.
- Below the horizontal line, add a section with 3 links:
- Link to the top of the page (Bookmark)
- Link to About.htm
- Link to Contact.htm
- In the footer, include social media image links (e.g., Facebook, Twitter). When clicked, they should open the respective social profile in a new window.
- Add an image that acts as a link to scroll back to the top of the page.
- Embed a YouTube video using <iframe>.

About Page:

- Create a separate page named About.htm.
- Write about yourself using text formatting tags:
    - Use <b>, <i>, <u>, <font> for styling.
- Try to avoid deprecated tags or use the style attribute if needed.
-
