  - Add a "Register Now" link that opens **registration.html**

Day 2Lab Assignments

Page 2: Schedule Page (schedule.html)

- Create a schedule page named **schedule.html**
- The page should include:
  - Same **header** and **navigation** as index.html
  - Page title using <h1>: "Conference Schedule"
  - Use <article> for each day of the conference
  - Inside each article:
    - Use <section> for morning, afternoon, and evening sessions
    - Use <time> element for each session time
    - Session title in <h3>
    - Speaker name in tags
  - Example structure:
    - Day 1 (September 15, 2026)
      - Morning: Keynote Speech - 9:00 AM
      - Afternoon: Workshop Sessions - 2:00 PM
      - Evening: Networking Event - 6:00 PM
  - Add an <aside> with "Download PDF Schedule" link
  - Same **footer** as index.html

Page 3: Speakers Page (speakers.html)

- Create a speakers page named **speakers.html**
  - The page should include:
    - Same **header** and **navigation** as other pages
    - Page title using <h1>: "Featured Speakers"
    - Create **3 speaker profiles**, each in an <article>:
      - Use <figure> for speaker photo with <figcaption> showing their name
      - Speaker name in <h2>
      - Job title and company in <p> with appropriate formatting (<i> or)
      - Short bio paragraph (3-4 lines)

  - Talk title in
  - Use <section> to separate bio from talk description
- Add a horizontal line <hr> between each speaker
- Include an <aside> with "Want to be a speaker?" and link to registration page
- Same **footer** as other pages
-

Page 4: Registration Page (registration.html)

Create a registration form page named **registration.html**

- The page should include:
  - Same **header** and **navigation**
  - Page title: "Event Registration"
  - A <form> with action="success.html" and method="POST"

Form Structure:

Section 1: Personal Information (use <fieldset> and <legend>)

- Full Name: <input type="text" required maxlength="100">
- Email: <input type="email" required>
- Phone: <input type="tel" required>
- Date of Birth: <input type="date" required>
- Professional Website: <input type="url">
- Each input must have a <label> with proper for attribute

Section 2: Ticket Type (use <fieldset> and <legend>)

- Use **radio buttons** (same name attribute):
  - Early Bird Pass ($299)
  - Standard Pass ($399)
  - VIP Pass ($599)
  - Student Pass ($149)
- Each with a <label> wrapped around or linked to the input

Section 3: Workshop Selection (use <fieldset> and <legend>)

- Use **checkboxes** for selecting workshops:
  - Advanced React Patterns
  - Backend Architecture

Day 2Lab Assignments

    - UI/UX Design
    - Cloud Deployment
    - AI and Machine Learning
- Each with a proper <label>
